VARIANCE ANALYSIS FOR MAJOR REPORTED ITEMS

At the end of January 2024, cash receipts totaled \$319.4 million, or 36.4 percent of the FY 2024 Budget. The YTD budgeted receipts were \$299.7 million. The total receipts for January were \$92.2 million as compared to the budgeted \$80.1 million. Several categories of customers make payments on a quarterly basis, including the Federal Government (which made their second quarterly payment in January), and wholesale customers (who made their first quarterly payment in November 2023).

Favorable Variances	Unfavorable Variances
<u>Residential, Commercial, and Multi-Family</u> – Receipts for this category are favorable at \$180.5 million or 36.0 percent of the budget. The higher receipts are mainly due to higher consumption as compared to the budget. The January 2024 receipts were higher by \$5.5 million, or 13.3 percent as compared to the monthly budget of \$41.8 million. <u>Federal</u> - Actual receipts through January 2024 total \$47.0 million or 52.2 percent of the budget. The Federal government made its second quarter payment in January 2024. <u>DC Housing Authority</u> – Receipts are favorable at \$5.6 million or 38.2 percent of the budget. The January 2024 receipts are slightly higher by \$0.2 million as compared to the monthly budget of \$1.2 million. <u>Federal</u> - Actual receipts through January 2024 total \$47.0 million or 52.2 percent of the budget. The Federal government made its second quarter payment in January 2024. <u>Wholesale</u> – Actual receipts for this category total \$29.1 million or 27.3 percent of the budget. The wholesale customers made their first quarter payment in November 2023. <u>PILOT/ROW</u> – The receipts for PILOT/ROW are favorable at \$8.8 million or 37.8 percent of the budget. The January 2024 receipts are slightly lower by \$0.1 million as compared to the monthly budget of \$2.5 million.	<u>District Government</u> – Receipts are slightly lower at \$8.1 million or 32.2 percent of the budget. The January 2024 receipts are lower by \$0.3 million as compared to the monthly budget of \$2.1 million. <u>Other Revenue</u> - Receipts are lower at \$16.4 million or 30.6 percent of the budget mainly due to lower Developer Fees, System Availability Fee, and Washington Aqueduct Backwash as compared to the budget. The DC Fire Protection Fee of \$2.88 million has been paid earlier by the District Government in January although it is due in February 2024.

VARIANCE ANALYSIS FOR MAJOR REPORTED ITEMS

Total operating expenditures for this period (including debt service and the Right-of-Way & PILOT fees) totaled \$213.7 million or 29.0 percent of the FY 2024 budget of \$737.6 million.

Management presented proposed amendments to the FY 2024 Operating Budget as part of the Proposed FY 2025 Budget presented to the Board in January 2024, to reprogram \$10,318,201 from debt services to CFCI due to a planned debt that was not issued in FY 2023, coupled with the release of the 1998 debt service reserves. These funds will be applied to PAYGO to reduce future borrowing costs. Overall, the FY 2024 budget remains the same.

These numbers include estimated incurred but unpaid invoices and are subject to revision during year-end close-out. The FY 2023 close-out process continues, which entails finalizing a number of GAAP-related accruals.

Favorable Variances	Unfavorable Variances
<u>Personnel Services</u> – YTD variance is consistent with the current vacancy rate. As part of the ongoing budget process, 11 positions were eliminated, bringing the headcount to 1314. Of the 1314 positions authorized, 1145 were filled at the end of January with a vacancy rate of 12.9 percent. The YTD active vacancy rate (based on vacant positions under active recruit) is 7.7 percent. <u>Contractual Services</u> – Consistent with previous reports. Spending is in line with expectations throughout the Authority at this time of the fiscal year. <u>Water Purchases</u> – Reflect DC Water's share of Washington Aqueduct expenditures (approx. 75 percent). <u>Debt Service</u> – YTD variance is mainly due to a credit released from the 1998 Debt Service Reserve Fund in excess of the requirement.	<u>Supplies & Chemicals</u> – YTD variance is primarily due to increased costs of critical spare parts including a surge in parts demand for the biosolids area due to aging equipment and other cyclical demands at the Plant. <u>Small Equipment</u> – Spending is consistent with purchases at this time of the fiscal year.

Notes: The increase in the accounts receivable over 90 days (from the billing date) is due to the temporary suspension of collections procedures because of the new billing system VertexOne, which was implemented in December 2017. The increase in accounts receivable from March 2020 to September 2022 is primarily due to increased delinquencies and deferred payments due to the impact of COVID-19.

Customer Communication

Statements are provided to customers when there is activity on the account. To ensure that all customers are aware of the balances, statements are also mailed annually irrespective of whether there is an activity on the account. For the last three years, annual statements were mailed to customers on April 28, 2023, January 25, 2022, and February 25, 2021.

By law, refunds are to be requested by the account owner within two years of completion (DC Code § 34–2401.10). If not requested in that time limit, these accounts can be forfeited and closed. DC Water has placed a statement on invoices beginning in November 2019 notifying customers of the District law and that funds would be forfeited unless a refund is requested within two years of project completion or account inactivity. A notification to customers that is posted on our website indicates that unless a refund was requested, funds would be forfeited for projects without activity for ten years. AOBA and DCBIA have been asked to notify their membership to examine the invoices.

For accounts that were forfeited, zero balance statements were mailed out on Monday, August 16, 2021, and September 21, 2022.

Refund Requests

In response to the annual account statements provided to customers in April 2023, it has been determined that refund requests submitted impacts 1295 accounts. This month, 16 new refund accounts were received.

Approximately 8,028 inspection work orders have been closed since September 2023. The work orders include the submittal of redlines or as-builts, inspections including water and sewer connections, abandonments, and closed-circuit television (CCTV). Closing work orders has been one of the major constraints encountered while processing the refunds. This is as a result of developers not providing the information required by DC Water to close the work orders.

In order to expedite this process DC Water decided to close old work orders for projects that were completed before 2019.

The table below shows a breakdown of the work performed to date.

Investment Performance Report – January 2024

DC Water Finance Division Economic Update & Portfolio Summary

ECONOMIC COMMENTARY

- At the January meeting, the Federal Open Market Committee (FOMC) opted to maintain its target rate range at 5.25-5.50%. The Federal Reserve is unlikely to start cutting rates at their next meeting in March.
- The unemployment rate held steady at a steadfastly low 3.7%, while labor force participation was stable at 62.5%, with a slight uptick in prime age participation to 83.3%.
- Payroll growth blew expectations away in January, with headline job gains picking up relative to recent months. Total payroll employment rose by 353,000 last month, nearly doubling the consensus expectation. The labor market is regaining momentum and is still very tight.
- The combination of strong job growth and a reacceleration of earnings is likely to give Fed officials some pause, as momentum isn't yet showing the broad slowdown necessary for the central bank to begin cutting rates sooner than later
- **Takeaway:** Powell stated at the January FOMC meeting that a March cut is "not the most likely".

PORTFOLIO RECAP

- The portfolio is diversified among Bank Deposits, U.S. Treasuries, Federal Agencies, Mortgage-Backed Securities, Supranational Bonds, Negotiable CDs, Corporate Notes/Bonds, Municipal Bonds, FDIC Insured CDs, Bank Notes and SEC registered money market funds.
- The overall yield-to-maturity on cost of the portfolio is 3.27%. The short term consolidated composite periodic 1 month return was 0.26% and the benchmark of ICE BofA 3- month Treasury Index periodic 1 month return was 0.45%. The Core Consolidated Composite periodic 1 month return was 0.36% and the benchmark of ICE BofA 1-3 Year Treasury Index periodic 1 month return was 0.37%.

DC Water's Budget

- 💧 The Board of Directors has the sole authority to adopt DC Water's budget
- 💧 When DC Council established DC Water, they emphasized the importance of need for independent financial control in DC Code § 34-2201.01:
 - **(3) The financing requirements** for water distribution and sewage collection, treatment, and disposal systems, including the ability to fund capital programs without undue reliance on the general obligation credit of the District, are substantial and **require financial resources independent of other District funds**
 - **(4) Creation of an independent authority** with secure funding **separated** from the District's General Fund to oversee water and sewer operations for the District and surrounding jurisdictions will **enhance the financial viability of water distribution and sewage collection, treatment, and disposal systems in the District and enhance the District's ability to meet its statutory obligation to provide sanitary sewer services to the surrounding jurisdictions**
 - **(7) It is in the best interest** of the District, its citizens, and the surrounding jurisdictions that the Council establish an **independent water and sewer authority** to achieve the following goals and objectives
 - **(B) To expedite the repair, replacement, rehabilitation, modernization, and extension of existing water distribution and sewage collection, treatment, and disposal systems including the financing, on a self-sustaining basis, of capital and operating expenses** relating thereto

DC Water's Budget

- 💧 DC Council and the U.S. Congress enacted legal requirements for DC Water's budget:
 - **7 affirmative [Board member] votes shall be required for approval of the Authority's budget.** See D.C. Law 11-111; D.C. Code § 34-2202.04(b)(4)(j)
 - The District of Columbia Water and Sewer Authority established pursuant to Chapter 22 of Title 34 shall prepare and annually submit to the Mayor, for inclusion in the annual budget, annual estimates of the expenditures and appropriations necessary for the operation of the Authority for the year. All such estimates shall be forwarded by the Mayor to the Council for its action pursuant to §§ 1-204.46 and 1-206.03(c), **without revision but subject to his recommendations.** Notwithstanding any other provision of this chapter, the **Council may comment or make recommendations** concerning such annual estimates, but **shall have no authority under this chapter to revise such estimates.** See Pub. Value of Water

💧 Tap Water is the affordable choice.

- Bottled water is 6,000% more expensive than tap water
- One gallon of bottled water costs \$1.23 per gallon on average*
- One gallon of DC Water costs \$0.02 per gallon

OR

Value of Water

💧 Tap Water is the environmental choice

- Americans purchase about 50 billion plastic water bottles per year
- Bottled water production and transportation requires tremendous energy and natural resources
- About 86% of empty plastic water bottles end up in the trash instead of being recycled
- Anacostia Riverkeeper says more than half of the trash floating in Anacostia River is from plastic water bottles
- New study found massive amounts of microscopic plastic in bottled water

Researchers find a massive number of plastic particles in bottled water

FY 2025 vs. FY 2024 Budget Variances

- 💧 **Personnel Services** – \$7.5 million increase mainly for salaries, vacancy adjustments and health benefits costs for 1325 FTEs. Funds steps, merit increases and bonus payments for existing employees and pays for Summer Internship and Apprenticeship programs. Additional increase of \$0.6 million in overtime costs needed for emergency response activities
- 💧 **Chemicals & Supplies** – \$1.0 million increase in parts and supplies needed for the maintenance of equipment and various facilities. The proposed budget for major chemicals remains relatively flat compared to the FY 2024 approved level
- 💧 **Utilities** – \$1.1 million increase mainly in water usage due to changes made in the treatment process at the Plant, and slight increases in costs for electricity and telecommunications based on current forecasts
- 💧 **Contracts** – \$9.2 million increase mainly for the maintenance and repairs of operational facilities, critical equipment, software systems, rising cost of insurance premiums and various professional services including hauling and disposal, biosolids hauling, high pressure high vacuum and industrial cleaning, tree root foaming, and security guards
- 💧 **Water Purchase** – \$1.3 million increase is based on the Aqueduct's projected operating costs, including DC Water's share of the McMillan Sewer backwash (\$2.6 million) with offsetting revenue opportunity
- 💧 **Small Equipment** – Overall budget of \$1.4 million is relatively flat compared to the approved FY 2024 level
- 💧 **Non-O&M** – Increase of \$29.7 million for debt service and CFCI/PAYGO to support the capital program. Additionally, there is an increase of \$0.4 million for PILOT payments to the District consistent with the MOU

Risks and Opportunities

- 💧 Budget for Cash Financed Capital Improvements (CFCI) serves as a contingency
 - Budgeted funds are used as pay-as-you-go (PAYGO) capital funding
 - If operating costs exceed budget, CFCI is reprogrammed out and PAYGO is reduced
 - If operating costs are less, unspent budget will be reprogrammed to CFCI and used as PAYGO, reducing debt service costs for all customers

Chemicals and Energy

- Market volatilities and impact on unit prices
- Onsite energy optimization, solar project output & timeline, rain events and process optimization

Contractual Services

- Equipment & Facilities - Parts, equipment and maintenance requirement for tunnels, treatment facilities and the new buildings for Fleet Services and Sewer Services
- Litigation & Insurance - Impacts of unanticipated legal cases, insurance policy requirements and workers compensation claims
- Impact of inflation on professional services

Personnel Costs

- Overtime during emergencies, increased healthcare cost, lower than anticipated vacancy rate, and other adjustments typically funded by vacancies
- Impacts of the Labor Compensation Agreement with the five unions which expired September 30, 2023

Emerging/New Legislation

- *Newly introduced Water Bill Tenant Empowerment and Management Amendment Act of 2023* – changes to the water shutoff code will have a significant impact on delinquencies and related revenue requirement and debt service costs

Proposed Operating Revenues and Financial Plan

Multi-Year Rate Plan Considerations

- 💧 DC Water recovers only the funds necessary to fund the Operating and Capital Budgets through rates
- 💧 One of the fastest growing expenditure category is debt service for the capital program, which has grown an average of 6.2% a year since 2016
- 💧 As part of the budget, DC Water presents the rates required to support the CIP and forecasted operating expenditures
 - Rates are reviewed and approved by the DC Water Board every two years
 - The financial plan, including the forecast of rates, is proposed to the Board for consideration
- 💧 Customer Assistance Programs provide discounts for residential customers
 - Income requirements for those programs every year
 - In FY 2021 the discount was increased for customers in the CAP program to ensure that rates comprised a lower portion of household income
 - Proposed new programs for FY 2025; CAP+, Payment Incentive, Leak Assessments.

FY 2024 vs. FY 2025 Operating Revenues

\$ in thousands

Revised FY 2024

Revenue Comparison by Customer Class

- 💧 Total revenue is projected to increase by \$35.7 million or 4.0% for FY 2025 and \$51.2 million or 5.5% for FY 2026 mainly due to rate increase
 - Retail Revenue* – Increase by \$26.3 million or 3.7% in FY 2025 and \$43.5 million or 5.9% in FY 2026
 - Wholesale Revenue* – Increase by \$7.7 million or 7.3% in FY 2025 and \$6.7 million or 5.8% for FY 2026 due to operations and maintenance expense projection. Revenue estimates are based on most recent flow data

Ratemaking Process

The Board's Strategic Plan and 10-year financial plan provide the framework for the formulation, prioritization, implementation and monitoring of the annual budget process.

The annual budget process typically begins with planning in June and official kickoff in July of each year for the Operating and Capital Budgets. Plans and budgets are prepared at an appropriate level of detail for each management level. Assumptions inherent in the plans and budgets reflect the entity's historical experience, current conditions and Executive Team's directives. Once decisions are finalized for the operating and capital budgets, management develops the financial plan and rate model including various scenarios to ensure a balanced budget for recovery of costs. Further review is undertaken with independent consultants including benchmarking our proposed rates with peers in the industry. DC Water develops two-year rate proposals. The benefits of multi-year rates include greater revenue certainty, increased budget discipline and better alignment between revenues and expenditures.

The proposed budgets are finalized during the fall of each year, and introduced to the Board during the Budget Workshop typically in January. The Committees then submit their recommendations to the full Board for adoption and DC Water's adopted budget is included in the District of Columbia's budget submission to U.S. Congress.

DC Water's adopted budget and proposed rates are communicated via various news and media outlets as well as town hall meetings in each ward and a public hearing to provide customers the opportunity to comment on the changes. Once the budgets are appropriated by Congress and the final rates approved by the Board, they become effective on October 1st of each year.

Appendix

Coverage and PAYGO

- 💧 Coverage is a core financial metric that reflects the financial health of a utility and measures the funds that are available to pay debt service after operating costs are met
 - Funds representing excess coverage are used as PAYGO or cash to fund the capital program
 - A reduction in PAYGO would require additional borrowing to cover capital budget expenditures for infrastructure improvements
- 💧 Coverage in the budget and the financial plan is consistent with recent results that have led to high bond ratings and lower borrowing costs
- 💧 Higher coverage indicates greater flexibility to tolerate financial stress from unexpected expenditures or a shortfall in revenues while still assuring repayment of debt
- 💧 Maintaining this metric in the Financial Plan is deliberate and not arbitrary; it has been recognized by Rating Agencies as a financial strength and a reason that DC Water can borrow at low rates

Higher 2022 coverage projection is the result of a Rate Stabilization Fund withdrawal to establish 250 days of cash outside of that Fund

- *In calculating debt service coverage, withdrawals from RSF are counted as revenues; deposits to RSF are subtracted from revenues*

Liquidity

- 💧 Liquidity is measured in the number days of unrestricted operating cash
 - *Liquidity is the number of days that DC Water could cover operating costs without additional revenue*
- 💧 Higher liquidity indicates greater flexibility to deal with unexpected expenditures or a shortfall in revenues
- 💧 DC Water has maintained a minimum of 250 days of cash since 2015, which is required by Board policy
- 💧 Certain rating agencies expect > 250 days of cash for utilities rated in the highest category
- 💧 DC Water's unrestricted liquidity is low when compared to its highly rated peers
- 💧 Maintaining this metric in the Financial Plan is deliberate and not arbitrary; it has been recognized by Rating Agencies as a financial strength and a reason that DC Water can borrow at low rates

Liquidity as measured by credit rating agencies includes unrestricted reserves in addition to Rate Stabilization Fund balance.

Debt Service for Existing Debt

- Debt service costs *for current debt* are projected to be approximately \$6.0 billion over the next 30 years through 2053
 - Clean Rivers debt service costs are \$2.3 billion and Non-Clean Rivers debt service costs are \$3.7 billion

- Cash disbursements basis

Near Term of the 10-Year CIP

- 💧 To advance the capital program, DC Water will borrow an additional \$3.3 billion over the next ten years
- 💧 These new debt service costs will require additional rate increases

- Cash disbursements basis

Historical and Projected Combined Rate Increases

- FY 2025 and FY 2026 are proposed rates, which are slightly lower than previously estimated because of increase in projected revenues mainly due to higher consumption forecast
- In FY 2027 and beyond, forecasted rates are slightly higher than previously estimated due to higher costs

Reflects updated changes based on cost of service study completed

- 💧 The FY 2024 authorized headcount was **1342 FTEs**
 - 17 vacant positions were eliminated during FY 2023
- 💧 The amended headcount for FY 2024 is **1325 FTEs**
- 💧 1145 positions were filled as of January 2024
 - Additional 11 vacant positions have been eliminated in FY24

ACTION ITEM**

**ACTION ITEM 4D: FY 2024 – FY 2033 Proposed Capital Improvement Program
(Ten-Year Disbursement Plan and Lifetime Budget)**

DC Water recommends, for Board Approval, the FY 2024 – FY 2033 Proposed Capital Improvement Program on two different bases:

- a. **Ten-Year Disbursement Plan** – The cash disbursement-based capital plan is utilized to forecast the timing and amount of capital financing, which is the primary basis for projected retail rate increases.
- b. **Lifetime Budget** – The project lifetime budget reflects the total costs of each project active during the ten-year planning period. These costs include historical and projected spending, project contingencies, and labor (listed as a separate line item).

As shown in Attachment A-1, DC Water request approval by Board of Directors as follows:

- a. **FY 2024 – FY 2033 Disbursement Plan** – \$7.74 billion, including the Proposed Revised FY 2024 budget of \$514.7 million
- b. **Lifetime Budget** – \$16.08 billion

Economic Update & Portfolio Summary**

ECONOMIC COMMENTARY

- At the January meeting, the Federal Open Market Committee (FOMC) opted to maintain its target rate range at 5.25-5.50%. The Federal Reserve is unlikely to start cutting rates at their next meeting in March.
- The unemployment rate held steady at a steadfastly low 3.7%, while labor force participation was stable at 62.5%, with a slight uptick in prime age participation to 83.3%.
- Payroll growth blew expectations away in January, with headline job gains picking up relative to recent months. Total payroll employment rose by 353,000 last month, nearly doubling the consensus expectation. The labor market is regaining momentum and is still very tight.
- The combination of strong job growth and a reacceleration of earnings is likely to give Fed officials some pause, as momentum isn't yet showing the broad slowdown necessary for the central bank to begin cutting rates sooner than later
- **Takeaway:** Powell stated at the January FOMC meeting that a March cut is “not the most likely”.

PORTFOLIO RECAP

- The portfolio is diversified among Bank Deposits, U.S. Treasuries, Federal Agencies, Mortgage-Backed Securities, Supranational Bonds, Negotiable CDs, Corporate Notes/Bonds, Municipal Bonds, FDIC Insured CDs, Bank Notes and SEC registered money market funds.
- The overall yield-to-maturity on cost of the portfolio is 3.27%. The short term consolidated composite periodic 1 month return was 0.26% and the benchmark of ICE BofA 3- month Treasury Index periodic 1 month return was 0.45%. The Core Consolidated Composite periodic 1 month return was 0.36% and the benchmark of ICE BofA 1-3 Year Treasury Index periodic 1 month return was 0.37%.

Operating Reserve and Bond Proceeds Portfolios

- During January, the investment advisor (PFMAM) purchased \$6.5 million in Treasuries with yields ranging from 4.09-4.15% and \$1.5 million in Corporate notes with yields ranging from 4.75-4.84%. DC Water reinvested \$5.6 million in CDARs with a yield of 3.75%.
